Quick Release Filter Canister

Rear Propulsion

Oversized Suction Intake

1 Vortex Vacuum Technology

Enables unparalleled debris consumption through its revolutionary vacuum flow design, allowing it to pick up debris quickly and efficiently, while maintaining maximum suction throughout the entire cleaning cycle.

2 Quick Release Filter Canister

No Bags. No Mess. With the quick release filter canister you never have to touch debris again. Simply shake and hose off the filter canister and within minutes your 9300 Sport is back up and running again.

3 Oversized Suction Intake

Designed to pick up larger debris such as gum nuts, small twigs and eucalyptus leaves other cleaners struggle with, the Polaris 9300 Sport will clean your pool in next to no time.

4 Efficiency & Convenience

The Polaris 9300 Sport operates using only 150 watts of power (an average LCD TV uses 400 watts of power) which can save you up to 90% in energy consumption versus using a conventional pool cleaner. The Polaris 9300 Sport also comes equipped with a complimentary premium quality transport/storage caddy constructed from heavy gauge powder coated alloy.

5 Positrax Tyres

Fitted specifically to suit Australian pools providing maximum adhesion and performance in all pool surfaces.

6 Rear Propulsion

The powerful rear propulsion assists in cleaning debris in tight corners and step areas other cleaners struggle with, making it a smarter faster way to clean your pool.
